

INTERNSHIP - ENGINEERING VALIDATION (M/F/D)

We are looking for a motivated and enthusiastic Intern to support in areas of Technical Project Management as part of the Jenbach Testing/Validation Team. You will be responsible for a variety of Project Management activities while developing gas engines in collaboration with a group of validation experts managing world class testbenches and rigs.

This minimum duration of this internship is 6 months with the possibility to be prolonged for another 6 months. A valid work permit for Austria is a prerequisite for this position.

Your responsibilities:

- Develop & maintain test documentation & results database across engine platforms
- Plan & execute tests & measurements plus analysis & data post-processing
- Work with Technical Experts and Engineers to align test requirements & results
- Prepares project status reports by collecting, analyzing, and summarizing information and trends. Reports project status to Senior Leadership & Technical Experts
- Facilitates communication between departments including standard meeting structure to ensure action tracking and issue resolution.
- Maintains multiple project schedules in area of Test & Validation across multiple testbenches.

Your Profile:

- Studies in area of Mechanical, Electrical, Industrial Engineering or Project Management (HTL)
- First experience with project management topics is a plus
- Ability to work in a highly dynamic environment with quickly changing priorities
- Strong process analysis and problem solving skills
- Fluent German and English language skills
- Legal work authorization to work in Austria is required (Non-EU-citizens; please attach the authorization form to your application)

The base pay is composed of the amount according to the Austrian collective agreement which is **EUR 2.195,46** gross per month (x 14) for month 1-6 and **EUR 2 763,02** gross per month (x 14) for month 7-12.
